

# COVID-19 Cleaning Services

There are so many unknowns with Covid-19. The only thing we can all agree on is it has to GO. SC Companies Inc. is an expert remediation and cleaning firm and we're here to help! We are **IICRC Certified** with extensive knowledge and experience in bio-hazard cleaning.

Let us know if you need help sanitizing common or high traffic areas. We can tailor the scope and frequency of cleanings to your needs. (one-time, daily, weekly, etc..)

**Contact us if you need help at any of your properties.**

## **Recommended Scope: Clean & Apply Disinfectant**

1. Utilize HEPA Air Filtration Device during treatment.
2. HEPA vacuum all flooring and upholstery
3. Biowash all common area touchpoint surfaces with appropriate EPA registered disinfectant- 3-12 inches beyond point.
4. Fog areas as needed with appropriate EPA registered disinfectant. Protect surfaces with plastic, as needed.
  - Not recommended in occupied areas or with high volume of papers and electronic office equipment.

**Frequency Options: daily, weekly, monthly, or as needed.**

***We strongly recommend any cleaning for Covid-19 be done by a  
IICRC or RSA CERTIFIED remediation firm***

## Tips:

1. Wash Hands for 20-30 secs. Remember to clean phones and devices routinely.
2. Most disinfecting products have a dwell time of 30 sec to 10 min. Read product labels—adhere to dwell times when possible. **Dwell time or (contact time)**, refers to the amount of **time** that a disinfecting product needs to sit (or **dwell**) on a surface in order to kill organisms.
3. Practice social distancing. Together we can beat this virus as long as we are apart.
4. Be Safe. Be Aware. Stay Calm. Don't touch your face , no matter what :)
